Dilemma of the Pills

Arnav advised to take 2 tablets
A & B each day with water
Medicine is super expensive

2 A tablets

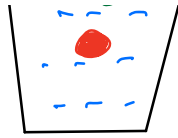

1 B tablets

Add 1 B pill to water

2 A tablets

2 B tablets

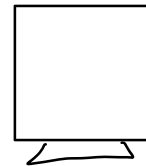

→ Divide the solution equally
into 2 glasses

Glass 1 ⇒ 1A tablet
1B tablet

Glass 2 ⇒ 1A tablet
1B tablet

Why is my computer dumb ?

computer

No !!

Ambiguous command

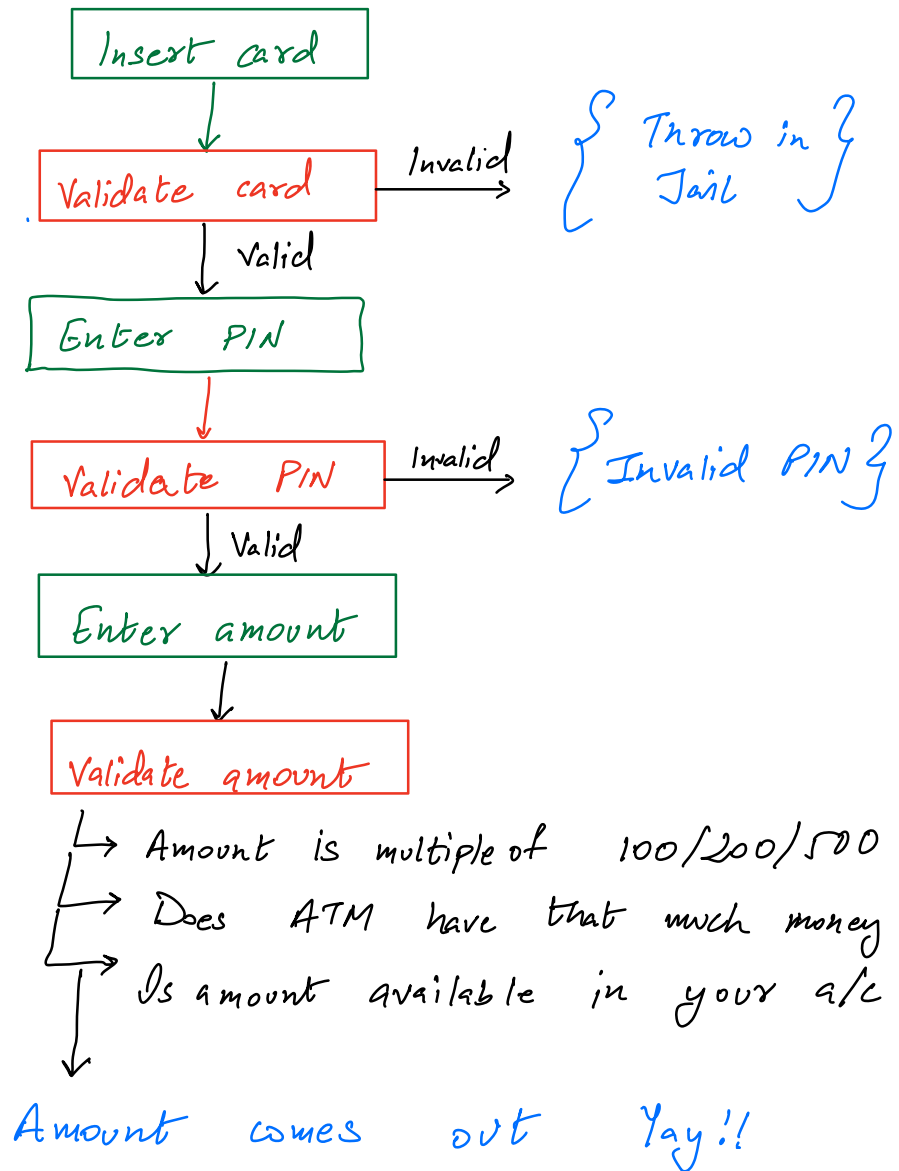

Clear instructions

Can get a glass
of water

- Go to kitchen
- Take steel glass
- Fill 80% with water
- Bring it to me

ATM [Automated Teller Machine]

Taking out money
